SEALEGS®
BE AMPHIBIOUS

SPECIFICATION

Dry Weight	2240kg
Max Payload	500kg
Fuel Capacity	250L
On-land Engine	35HP
Outboard Capacity	300HP

9.0M HYDRASOL RIB

SEALEGS 9.0m Hydrasol Rigid Inflatable is the ideal workhorse vessel for your shoreline adventures. Easy, safe boarding and launching of passengers/equipment – stable and powerful in the water and on land. Choose bench seating, or optional Suspension Seats to absorb jarring chop. Even with 8 passengers, there is generous cargo space forward of the console for ample gear to be stowed comfortably. Landing with Sealegs patented system of large, soft tires leaves minimal impact on tidal areas and gets everything (and everyone) above the high tide mark safely without anyone having to leave the craft. Once ashore, retract the wheels to lower the gunwhale right to the ground for unloading/loading comfortably. Sealegs is less hassle and more fun with every outing.
